"Understand Our Past – Embrace Our Future"

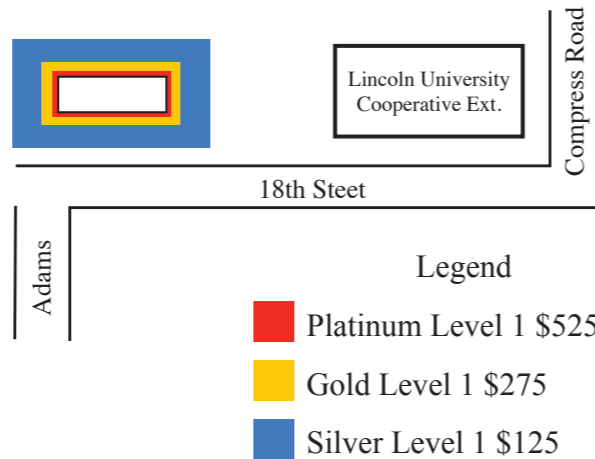

For fifty-three years, Washington School provided an educational opportunity for "Negroes/African-Americans" in Caruthersville and some surrounding communities. Excellent leadership from principals, teachers and support staff provided a superb learning environment for people of color. We are extremely proud of the teachers, staff and all the students who attended Washington High School. Now is the time to show pride for Washington's rich history.

The beneficiaries of Washington School now stand ready to assist in establishing and preserving the significance of this historic institution which we credit with shaping young minds for success in life.
